ABOUT US

Janvikas Samajik Sanstha (JVSS) is a non-religious, apolitical, and non-profit registered social organisation, established in 1995. Dedicated to transforming unjust societal structures, the organization focuses on the socio-economic and educational development of economically disadvantaged women, children, marginal farmers, landless individuals, agriculture workers, daily wage laborers, and migrating families. The organisation addresses crucial issues concerning livelihood, education, health, agriculture, environment, soil and water conservation, sanitation, shelter etc. Equipped with a training center spanning 28 guntha of land in Kaij, it can accommodate up to 100 participants simultaneously for training, workshops, and social events, demonstrating organisation's commitment to positive change at the grassroots level.

MISSION

Undertake all the efforts and activities that envisage self motivated and holistic social change with socio-economic, educational upliftment and development of rural poor leading to building their capacities for their own development.

VISION

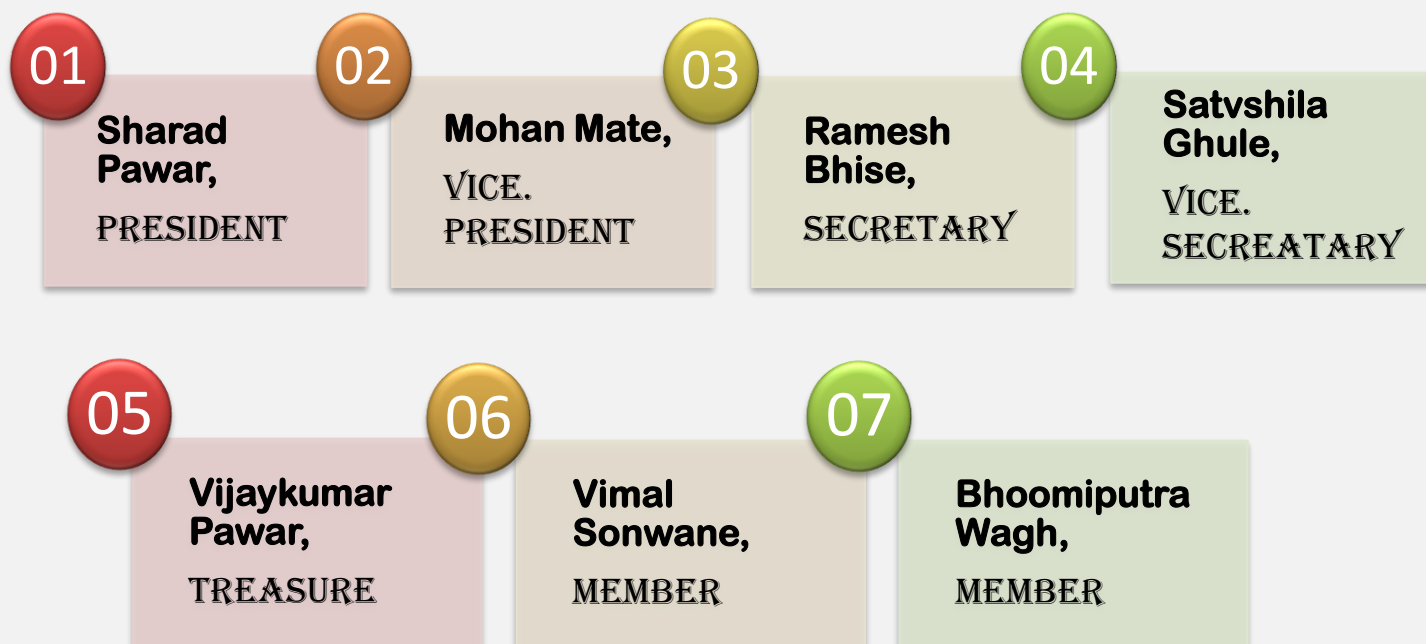

Societies with equal and just opportunities, with equal rights to natural resources, living with dignity, self respect and self supporting with a sense of well being.

BOARD OF DIRECTORS

FOCUS AREAS

- 1. Women Empowerment – Promoting gender equality and enhancing the socio-economic status of women.**
- 2. Sustainable Livelihood Development – Creating economic opportunities for underprivileged communities.**
- 3. Education for Children – Ensuring access to quality education for marginalized children.**
- 4. Drinking Water, Soil & Water Conservation, and Agriculture – Promoting clean drinking water, sustainable farming, and water conservation initiatives.**
- 5. Environmental Sustainability – Advocating for eco-friendly practices and restoring ecological balance.**
- 6. Disaster Management – Strengthening disaster preparedness, response, and recovery efforts.**
- 7. Healthcare for the Underprivileged – Improving healthcare access and well-being for vulnerable populations.**
- 8. Rural Development – Enhancing infrastructure, livelihoods, and community well-being in rural areas.**
- 9. Employment Generation – Creating job opportunities and skill development programs.**
- 10. Socio-Economic & Educational Development of Dalit, Adivasi, and DNT/NT Tribes – Promoting inclusivity, education, and economic empowerment for marginalized communities.**

WOMEN EMPOWERMENT

1} Mahila Vikas Manch:

Janvikas Samajik Sanstha [JVSS] has mobilized underprivileged and economically disadvantaged rural women from 300 villages in the Beed district, bringing them together in over 2,000 self-help groups. This collective of 25,000 women has established a federation known as Mahila Vikas Manch [MVM], thereby institutionalizing their efforts.

25,000 women from 2,000 Self-Help Groups across 300 villages are members of the federation. Mahila Samities are established at the village, taluka, and district levels. The federation is actively engaged in encouraging women to assert their equal rights in socio-economic development and their entitlement to natural resources. The program focuses on educating them about strategies to assert their rightful participation in the development process. It also imparts training on establishing connections with government initiatives and accessing credit from banks and various financial establishments. Moreover, the program empowers them with the skills needed for self-employment and fosters their overall skill development.

Achievements

1. More than 23,000 women from 120 villages have received legal rights to home and natural resources.
2. 439 SHGs received working capital of Rs 5,67,99,080/-.
3. 3,000 women are self employed.
4. 6,000 women received benefits of various Govt. schemes.
5. MVM is active in village governance by participating in activities of Gram Panchayat

2} Women SHGs Bank:

Banks in rural areas are reluctant to extend credit to marginalized individuals, both single men and women. As a result, these individuals often resort to moneylenders who charge exorbitant interest rates for loans. Many impoverished families migrate to sugarcane factories for their livelihoods, and others encroach upon desert land meant for grazing to sustain themselves.

Objective

The primary objective of starting the bank is to provide credit to those in need who are unable to access nationalized banks. These underprivileged individuals are supported in initiating their own small businesses by facilitating their access to credit through this bank.

Function

JVSS organized these women into Self-Help Groups (SHGs), and their group was registered as SPMBT. With their growing demand for credit, the group established an NBFC. The State Bank of India (SBI), BASIX, Ratnakar Bank, & NSFDC provided credit and capital to the NBFC. The SHGs exist at the village level, with a coordination committee at taluka level. They also form cluster committees, & there's a district-level BOT. Women are exclusively responsible for overseeing operations of these committees at different levels. The repayment rate is 100 percent.

Achievements

SPMBT extended credit to 426 SHGs, totalling Rs 15,12,22,354. Working capital was provided to these groups, enabling 5,142 women to initiate their own small businesses and support their families through the income they earned.

3} Counseling and Legal Aid Centre:

JVSS supports women in resolving family issues by offering counselling services, and its legal cell provides legal information and assistance for approaching the judiciary.

Achievements

1. Counselling centres are run in two Blocks and 2668 cases are registered of which 1250 cases are resolved through counselling.
2. 461 cases are forwarded to courts and legal support is being provided.
3. 1512 women are linked to benefits of the Govt. schemes and they are getting benefits under Niradhar Pension Yojana and Shravan Bal Yojana.
4. 2214 women have started their own enterprises like dairy farming, Kirana Shop, floor mill etc and are self supporting.

4} Livelihood

Sustainable Livelihood for Women and Their Families Through Goat Rearing. This project, aimed at empowering low-income families, daily wage laborers, and those with limited land holdings, has yielded impressive results in a short span of time. The project has provided a steady and dependable source of income for a group of 5000 women, positively impacting the financial stability of their families. Through specialized entrepreneurship development training, these women have acquired valuable skills and knowledge, empowering them to excel in goat farming and contribute to the economic growth.

Empowering Women Through Sustainable Dairy Farming

This initiative is transforming the lives of women in Maharashtra, by providing sustainable livelihood opportunities through dairy farming. With the support of Janvikas, 1200 beneficiary families have been provided with buffaloes, enabling them to establish their own dairy businesses and achieve financial independence. Each buffalo produces approximately 8 liters of milk daily, generating a steady monthly income of ₹12,000 for the beneficiaries. From 1200 buffaloes give daily average 9000-liter milk.

Additionally, the birth of calves has created new assets for the families, offering long-term economic opportunities either through selling or expanding their dairy enterprises.

This initiative is not just about providing buffaloes—it is about creating lasting economic empowerment, strengthening rural livelihoods, and building a foundation for a prosperous future for women and their families.

Empowering 230 Families in Sustainable Fish-Based Livelihoods

This transformative initiative is uplifting 230 families in Murud block, Raigad district, Maharashtra, by enhancing their fish-based businesses through strategic support and skill development. The project provides new boats, fishing nets, boat repair assistance, cold storage facilities, and self-employment opportunities, enabling beneficiaries to achieve financial independence. Fishermen who once worked on others' boats for minimal wages now own their own boats, ensuring they retain the full profit from their hard work. Women fish vendors, previously burdened by high-interest loans to purchase fish, have received financial aid, allowing them to reinvest and expand their businesses. The provision of ice boxes has drastically reduced fish spoilage, ensuring better stock management and higher earnings.

Beyond financial aid, the project focuses on long-term empowerment through training in fish trading, net weaving, and entrepreneurial skills. Village Development Committees, Self-Help Group Meetings, and exposure visits are fostering resilience, self-reliance, and community-driven growth.

This initiative is not just improving incomes—it is transforming lives, fostering sustainable livelihoods, and paving the way for economic prosperity in the region.

Achievements

1. Sustainable Livelihood for 5000 Women and Their Families Through Goat Rearing has brought about remarkable changes.
2. 1200 women and their families got sustainable livelihood opportunities through dairy farming.
3. Empowering 230 Families in Sustainable Fish-Based Livelihoods

5} Kalpataru Community Based Micro Health Insurance

Many environmental factors and change in life style coupled with enormous expenses on medicines affect the health of the community. The Kalpataru provides them security against it. The scheme is based on collectives of the groups that addresses the health and hazards related issues of family members, their crop and animals. The members of the SHGs are involved in the overall functioning. It has been registered as a trust and is functioning since year 2016.

The trust is run by the 500 SHGs, Claim [Daava] Samiti, Coordination committee and advisory committee from 72 villages of Kaij, Vadvani, Dharur, Ambajogai and Beed Talukas of Beed District.

Achievements

1. Participation of 11,114 family members from 3,996 families in 500 SHGs.
2. Insurance coverage for 322 animals from 270 SHGs across 34 villages. Information on PM Crop insurance shared with 400 SHGs in 58 villages; benefiting 1,540 farmers.
3. Financial support provided to 3,256 members, including compensation for animal loss and crop insurance benefits for numerous farmers.

EDUCATION

More than 50% of the population in Beed migrates to other states for sugarcane cutting. Children aged 6 to 14 accompany their parents, staying out of school for 6 to 7 months. Eventually, these children become temporary laborers.

While the Zilha Parishad operates temporary hostels to curb migration, the scheme lacks effective implementation. Due to the absence of proper security and quality education, the children continue accompanying their families. The NT and DNT communities reside 2 to 3 kilometers away from the villages, on vadi/vasti and tandas, where there are no educational facilities. This ultimately contributes to an increase in the illiteracy rate.

Intervention of JVSS

The organization has initiated Government Anganwadis in 20 locations and implemented the Right to Education (RTE) in 60 villages, facilitating access to quality education and executing school development initiatives. The organization has also provided training to School Management Committees, VCPC members, and Bal-panchayat members. Access to education has led to improved literacy rates and reduced dropouts. Children integrated into the school system are consistently attending classes. JVSS, through enhancing the capabilities of youth, SHGs, and the community, effectively

implements the Right to Education (RTE) and advocates for

free and compulsory education for the age group of 6 to 16.

Ensuring Clean Water Access for Tribal Students

The Ashram School at Pathraj, Karjat, in Raigad district, Maharashtra, is a lifeline for 534 tribal students from underprivileged backgrounds. This Government Secondary and Higher Secondary Residential School provides education to students from over 20 nearby villages, supported by 21 teachers and 14 staff members.

For years, the school struggled with an inadequate water supply. The existing well in the region could not meet the daily needs of the students and staff, forcing the school to take students to the nearby river for bathing. This was not only inconvenient but also posed significant safety risks. Limited water availability also affected sanitation, hygiene, and overall living conditions at the residential school.

To resolve this critical issue, the project focused on establishing a sustainable water supply system. A borewell was installed, along with a 15,000-liter water storage tank and a dedicated water supply to the sanitation facilities.

With a reliable water source now in place, students no longer have to risk going to the river for bathing, and the school can ensure proper hygiene and sanitation. This initiative has significantly improved the students' safety, health, and overall well-being, allowing them to focus on their education in a secure and supportive environment.

Enhancing Living Conditions for Visually Impaired Tribal Students

The residential facility for the blind in Kharadpada, Naroli, Dadra & Nagar Haveli, is home to 17 visually impaired tribal students (10 boys and 7 girls), supported by two caretakers. However, the facility had severely deteriorated over time, with peeling plaster, poor lighting, and an aging structure that made living conditions difficult and unsafe. Key upgrades included the replacement of the roof, fresh plastering, new flooring, electrification, plumbing, and the installation of new doors and windows. Vibrant new paint and improved lighting have created a more welcoming and comfortable environment, ensuring that students can live with dignity and ease.

This transformation has not only improved the structural integrity of the facility but has also provided a safer, brighter, and more uplifting space for the visually impaired students. The project stands as a testament to the commitment to improving the quality of life for underserved communities, giving these students a home that is truly supportive of their needs.

Bridging the Digital Divide for Tribal Students

The Government Ashram School in Pathraj village, Raigad district, serves 534 tribal students from rural and underprivileged backgrounds. Until recently, the school lacked a computer lab, leaving students without access to digital education and essential technological skills.

To bridge this gap, the project established a fully equipped computer lab, providing 24 computers along with necessary infrastructure, including computer tables, electrification, Wi-Fi, and educational artwork. This initiative has transformed the learning environment by introducing students to digital resources, enhancing their technological literacy, and preparing them for future opportunities.

With this new facility, students now have hands-on access to computers, enabling them to develop critical digital skills that were previously out of reach. This project marks a significant step toward empowering tribal students with the knowledge and tools needed to succeed in an increasingly digital world.

Achievements

4865
**Children's
Link
Education**

4,865 children into the formal education system 60 settlements across four blocks. Make digital facility for children's and also construct residential facility for disability children's.

7865
**Children's
link to
Temporary
Hostel**

7,865 children from sugarcane cutter labor families across 60 villages schools Connected to Temporary hostels.

20
**ISO
Schools**

Physical facilities, including E-learning and digital schools, have been introduced, with 20 schools achieving ISO certification.

HEALTH

The installation of a fully operational oxygen facility at the Primary Health Care Centre (PHC) in Khodoli, Mokhada Taluka, Palghar District, Maharashtra, has significantly enhanced emergency medical care for the region. Serving 40 surrounding villages and 53 hamlets, this facility caters to approximately 250 patients daily, including pregnant women, newborns, individuals with chronic conditions, and those requiring critical care.

With the establishment of a dependable oxygen pipeline system, patients now have improved access to life-saving oxygen therapy during emergencies, ensuring better management of critical cases and significantly improving health outcomes. Additionally, the availability of oxygen has enhanced the safety and efficiency of surgical procedures at the PHC, reducing complications and ensuring optimal patient care.

This initiative has strengthened the healthcare infrastructure in the region, equipping medical staff with essential resources to provide timely and effective treatment. By ensuring a continuous and reliable oxygen supply, the project has contributed to building a more resilient healthcare system, ultimately safeguarding the well-being of the entire community.

SUGAR-CANE CUTTERS LABORERS

Beed is known as supplier of sugar cane cutter labour as 50% of the population migrates. These laborers are not registered and are deprived of all the facilities available to registered laborer. JVSS organized these laborers from village to Block. They were facilitated to meet the administration from village to district and their applications for registration were submitted initially to Gram Panchayat. The Govt. issues order on 29th January 2016 to register these laborer.

Achievements

The Commissioner office had issued the order for registration of sugar cane cutters and registered laborers. More than 10276 laborers from 60 villages got registration at Gram Panchayat level. The agreement through Bonds were made between 7765 laborer and contractor and their proposals for Govt. level registration were submitted.

AGRICULTURE

Recent droughts in Marathwada have significantly impacted agriculture & farming production. The costs of farming have escalated, while production has decreased. Water scarcity, higher production costs, & decreased yields have resulted in indebtedness within farming community.

JVSS has undertaken several projects in this context. A few of them are outlined below. The organization facilitated the cultivation of 276 acres of land across three villages. In another area, it established electrical supply systems to access water for 52 acres of land. Additionally, JVSS provided sprinklers to farmers and supported over 500 farmers with 1,200 acres of land for land development to enhance cultivability.

Through community participation, land improvement activities such as straightening of Nala & the construction of a dam were undertaken on 100 acres of land. Custard apple cultivation was then initiated on these 100 acres, with a village-level committee now responsible for its maintenance. Traditional seeds were distributed to 1,000 farmers across 10 villages. Across 80 villages practical demonstrations were organized, training 400 farmers in organic farming practices. Moreover, 100 hectares of land have been developed under watershed management.

DROUGHT RELIEF WORK

The river, Nalas and Bandharas choked with waste and dirt were unable to retain and store water. There was drought since 2012 to 2018 and scarcity of food, water and fodder made the living difficult. Farmers were committing suicides and selling their livestock's at throw away price. Women and children were walking miles for water which was unsafe to drink and causing health problems. Migration reached its peak.

Intervention by JVSS

Under the Food supply program, various projects were implemented such as food to 2000 families across 5 villages for 3 months, Free ration to 350 families from 50 villages for 3 months, 100 deserted and widow women were provided 100 kgs of wheat and rice, Nutrition to 500 women and children of 5 villages.

1. Fodder was provided for 4 months to 500 animals and families whose livelihood was depending on livestock.
2. Wells were dug in 3 villages and electric motor was provided for lifting the water.
3. Provision of water to animals by making doha (water tanks) in 7 villages and Budki in 9 villages. Cement tanks 585 in number were constructed in 50 villages providing water to 10,000 animals.
4. Drinking water provision was made by supplying 107 Syntex tank of the capacity 5000 litres, 3000 litres, 2000 litres and 1000 litres and 10 Ferro cement tanks.
5. 20 Bandharas (Dams) from 5 villages were cleansed & deepened. Silt collected was spread on farms of local farmers which is good to increase the productivity of the land.
6. 10 lakes and wells were cleansed. 4 wells and 3 bore wells were rejuvenated.
7. The river from one village was deepened and widened for one kilometre of length.

8. 25 suicide affected families were provided with the tools to start self employment such as flour mill, goat rearing, cow, buffalo rearing etc.
9. Bore wells in 25 villages, today, 20,000 people are receiving benefits from the same.
10. Poor families were ensured of food security.
11. Children received the nutritious food contributing to their good health.
12. Hundreds of acres of land brought under cultivation.
13. Water storage capacity of water sources increased.
14. Animal lives were survived though providing regular fodder and drinking water.
15. 25 women from suicide affected families started their own small business.

WORK THROUGH NETWORK

Many NGOs and CBOs work on issues related to health, education, women's empowerment, agriculture, and the environment. However, their impact is limited due to the scattered nature of their efforts.

Marathwada has been experiencing continuous drought for several years, forcing people to migrate. To address this issue, Janvikas brought together various NGOs and CBOs to form Jansathi Shashvat Vikas Manch. The Manch focuses on employment generation through MNREGA, economic empowerment of women through SHGs, and ensuring access to and claims for benefits under welfare schemes.

A strategic plan was developed to tackle the drought across 15 districts of Maharashtra. JVSS serves as the lead organization for Marathwada and has worked in 150 villages across seven talukas in collaboration with 15 NGOs.

JVSS at organization level made efforts to bring together small and medium organizations to work collectively on the issues of drought, water and agriculture. The organisation provided training to youth and women on these issues and build their capacity to approach administration to claim their rights and welfare schemes. JVSS is a core member of Marathwada Lok Vikas Manch, Mahila Vikas Manch, Jansathi Shashvat Vikas Manch, Sathi and Bal Hakka Manch.

Achievements

1. Lakhs of laborers received employment under MGNREGA.
2. Landless received the land on their own names.
3. Community accessed water, food and employment during severe drought.
4. Land development improved agriculture production.
5. Plantation was done on hundred acres of land.

SOIL AND WATER CONSERVATION

Farmers in marathwada region are able to produce only Kharipa crops every year from June to October. The crops include Bajara, Tur, Moong, Udid, Soybeans etc. For the remaining seven months i.e. from November to May, no crop can be harvested, as the entire agriculture depends on rain. This results in low farm produce, no income and migration. To tackle the problem, JVSS has been making multiple efforts in soil and water conservation. Organisation has implemented the projects such as revival of water bodies, repair of water structures, clustered seedling planting, deepening and widening the rivers, lakes etc.

This has resulted in increase in water storage in wells, bore wells, ponds, streams, Nala, rivers etc. All the water bodies were revived. Water shortage for drinking and agricultural purposes were resolved significantly. There was an increase in agricultural income of the farmers due to these interventions. Sustainable Soil and Water Conservation for Livelihood Development

The Sustainable Soil and Water Conservation and Livelihood Generation project in Bengalwadi, Vida Gram Panchayat, Kaij Block, Beed District, Maharashtra, aims to improve agricultural productivity, enhance groundwater levels, and create sustainable livelihood opportunities for 250 families. Covering 130 hectares, the initiative directly benefits 1,200 individuals and indirectly impacts 260 additional hectares, promoting long-term environmental stability and water security.

Through watershed development, the project is restoring water bodies, preventing soil erosion, and improving groundwater levels to ensure reliable drinking water and enhanced irrigation for farming. Additionally, 1,00,000 custard apple seeds are being planted at the Bengalwadi watershed site,

contributing to environmental conservation. Beyond conservation efforts, the project is fostering sustainable livelihoods by supporting 50 underprivileged women and their families through goat rearing, seed provision, poultry farming, grocery shops, flour mills, and vegetable and fruit selling. Furthermore, 100 local residents will gain employment through water conservation initiatives, strengthening economic resilience in the region.

Expected outcomes include increased agricultural productivity, improved household incomes, reduced migration, and strengthened environmental sustainability. This ongoing initiative, set for completion in FY 2025-26, is laying the foundation for long-term water security, ecological balance, and socio-economic growth for the Bengalwadi community.

DRINKING WATER

The project focuses on restoring and strengthening drinking water systems to provide safe and clean water to 382 families and 3,000 cattle across remote hamlets under Vida Gram Panchayat, Kaij Block, Beed District, Maharashtra. By establishing local institutions at the hamlet level and strengthening Village Water and Sanitation Committees, the initiative ensures the sustainable management and functionality of water supply systems.

To secure long-term water availability, the project engages with relevant government departments and leverages resources for sustainable solutions in three hamlets. Additionally, support is being extended to five drought-affected villages in the Marathwada region, providing reliable drinking water access to 2,250 individuals, 200 livestock, and wild animals during drought seasons.

This intervention is a critical step in addressing water scarcity, improving community health, and ensuring water security for both people and animals in the most vulnerable regions of Beed District.

SANITATION

Individual Household Latrines is a huge need across India. Many villages are declared as open defecation free according to the government data, but the reality on the ground is totally different. Due to unavailability of toilet, women still have to go in open and have to wait to get it dark to go for the nature's call. Many govt toilets have become dysfunctional due to technical mistakes during construction. Spending on the construction of a toilet is much difficult for the poor who are not even able to earn a proper meal for themselves.

Achievements

Janvikas Samajik Sanstha have provided individual household latrines to 231 families in Maharashtra and the same for 25 families in Dadra and Nagar Haveli. These toilets are built according to the standards and are technically correct, hence every toilet is functional and in the use still today. The beneficiaries of the project were affected families, Widows, Destitute and deserted women, NT, DNT, Dalit, Marginal farmer, landless farmer, Handicapped & Poor families. Janvikas also spread awareness on importance of hygiene and cleanliness.

HOUSING

Farmer's suicide due to low farm produce and debt is a big challenge in marathwada region of Maharashtra. The deceased leave behind the widow, children, older parents and a huge debt. Many of such families used to live in a dilapidated house, made of mud and thin wood. Janvikas has supported 40 such families to have the stronger house made of bricks and mortar. A permanent house ensures privacy, security, dignity for the widows and empowers her to focus on other things of life such as education of the children, earning a daily living

DISASTER RELIEF

Janvikas supported 200 families whose houses were destroyed due to the flood caused due to heavy rain and overflow of the river. The families had lost everything in the house. The organization arranged for temporary shelters for these families and continuously supplied with emergency kit incorporating food, blankets and shawls and other necessary materials.

WATER WHEEL SUPPORT

Due to continuous droughts over the last five years, there is no water source available near the village. In Beed district, small villages are situated in hilly areas, forcing residents to fetch water from a distance of 2 to 2.5 kilometers. Women carry water daily on their heads and shoulders, often risking injury. Many times, they slip and fall, leading to broken bones and other serious injuries. To address this issue, Habitat for Humanity India and Janvikas Samajik Sanstha distributed 2,500 water wheels to families, each with a storage capacity of 35 to 40 liters.

COVID RELIEF WORK

Provision of food for 10,000 migrants laborers along with Accommodation at no cost and supported 500 laborers migrants laborers to reach their home town. These laborers were sent to their hometowns in coordination with the government administration

Provision of monthly groceries and safety kit for 150 families of construction workers, 250 slum dweller families, 8000 poor families, i.e. total 42,000 individuals.

Distribution of Seeds to 500 farmers, seeds of Bajra and Tur, sufficient for one acre of land.

500 Labor and people were sent to their hometowns in coordination with the government, administration and media by following all the rules and regulations of the government of COVID-19 and trying to get government pass and government transport system to go to their state and village

JVSS distributed 15000 N-95 Mask and sanitizer for the front line workers i.e. Doctors, Nurses, Police, Govt. & Administration offices, Safai Workers, Gram Panchayat employees, teachers, COVID yodha, Asha, Bank employees etc. JVSS provided health equipment.

There were sudden deaths in many families where head of the family lost life either by Covid or by suicides and family had no earning member. The whole family was quarantine and were out casted in village
In all 370 such families were provided Grocery Kits with all necessary food items for three months.

ADVOCACY

The rural poor till today are facing the problem of unemployment, migration, unproductive and rain fed agriculture and scarcity of water. The struggle for survival does not allow them to fight for it in collective. The lack of information and illiteracy deprives them from the benefits of development.

Work by JVSS

JVSS since last 22 years is working for the issues of the poor and helping them to claim their share in the development. The constructive advocacy is done with their active participation. JVSS providing handholding facilitative support.

दिव्य मराठी विशेष • जनविकास सामाजिक संस्थेस हॅंबिटाईड इंडिया व महिंद्रा फायनान्सने केले सहकार्य दुर्लक्षित कुटुंबांना बांधून दिली २३९ शौचालये

केज तालुक्यामधील
कुटुंबांना केली मदत

प्रतिनिधी | केज

केज तालुक्यातील निराश्रय, विधवा, परित्याग्य व गरीब कुटुंबांना स्वच्छ भारत मिशन योजनेतून शौचालय प्रोत्साहन अनुदान मिळवले नाही, अशा कुटुंबांचा सर्व्हे करून जनविकास सामाजिक संस्थेने हॅंबिटाईड इंडिया व महिंद्रा फायनान्सचे सहकार्य घेता २३९ निराश्रय कुटुंबांना शौचालये बांधून दिली आहेत. त्यामुळे या कुटुंबांचे उपद्रवावर जाण्याचे धाबडे आहे. शासनाकडून स्वच्छ भारत अभियानाअंतर्गत घरोघरी शौचालय

बांधकाम करण्यासाठी १२ हजार रुपयांचे प्रोत्साहन अनुदान दिले जाते. या अनुदानाचा लाभ घेण्यासाठी लाभार्थ्यांचे नाव हे शासनाच्या वेबसाइटवर सर्व्हेक्षण यादीत असणे आवश्यक आहे. तर वेबसाइटवर सर्व्हेक्षण यादीत नाव नसलेल्या लाभार्थ्यांकडे शौचालय नसले

तरी त्याला स्वखर्चातून शौचालय बांधकाम करून घेणे आवश्यक झाले आहे. मात्र शौचालयाचे अनुदान मिळव्यास अपात्र ठरलेल्या गरजू, विधवा, परित्याग्य, निराश्रय कुटुंबांची आर्थिक स्थिती नाजूक असल्याने ते शौचालय बांधत नाहीत. अशी कुटुंबे ही उपडवदार

वचितांना प्राधान्य : रमेश भिसे

शौचालयाअभावी आर्थिक दुर्बल कुटुंबातील महिला, मुले व वृद्ध यांची कुचंबणा होत असे. विधवा, निराश्रय व गरीब कुटुंबे या योजनापासून वंचित राहतात. त्यांच्यासाठी शौचालय बांधून देण्याचा निर्णय घेतला. हॅंबिटाईड इंडिया व महिंद्रा फायनान्समुळे हा उपक्रम यशस्वी करता आल्याचे जनविकासचे रमेश भिसे म्हणाले.

जातात. ही बाब पुढे आल्याने जनविकास सामाजिक संस्थेने अशा कुटुंबांचा आगोदर सर्व्हे केल्या. या कुटुंबास शौचालय बांधकाम करून देण्यासाठी हॅंबिटाईड इंडिया आणि महिंद्रा होम फायनान्स या कंपन्यांनी त्यांना सहकार्य केले. जनविकास संस्थेने पुढाकार

घेतल्यामुळे निराश्रय कुटुंबासाठी एकूण २३९ दर्जेदार शौचालये बांधण्याचा महत्वाकांक्षी उपक्रम हाती घेण्यात आला आहे. केज तालुक्यातील सुर्दी, सोनेसांगी, धनेमाव, माळेगाव, विडा या गावातील शंभर शौचालयांचे बांधकाम पूर्ण झाले असून त्याचा वापर सुरू झाला आहे. तसेच उर्वरित एकरो एकतीस शौचालयांचे बांधकाम प्रगतिपथावर असून लवकरच त्याचे काम पूर्ण होणार आहे. या अशोकांच्या दृष्टीने महत्त्वपूर्ण उपक्रमाने आणि हॅंबिटाईड इंडिया आणि महिंद्रा होम फायनान्स या कंपन्यांच्या सहकार्यातून २३९ कुटुंबांचे उपद्रवावर जाण्याचे धाबदार आहे.

जनविकास संस्थेतर्फे २७०० मजुरांना जीवनावश्यक किटचे वाटप; पायी जाणाऱ्या ३ हजार जणांना अल्पाहार

प्रतिनिधी | केज

केज तालुक्यातील सुर्दी फाटा येथील जनविकास सेवाभावी संस्थेच्या पुढाकारातून दोन हजार सातशे जीवनावश्यक किटचे वाटप करण्यात आले. तर गावाकडे पायी चाललेल्या परप्रांतीय तीन हजारहून अधिक मजुरांची चहा, नाशत्याची सोय करून भूक भागविली आहे. कोरोना विषाणूच्या संसर्ग रोखण्यासाठी संचारबंदी आणि लॉकडाऊन लागू झाल्याने काम बंद पडले. त्यामुळे अनेक परप्रांतीय व स्थानिक मजुरांचा आपल्या मुलाबळांसह डोक्यावर समान पैठान रणरणत्या उन्हात गावी पायी प्रवास सुरू होता. केज - कळंब राज्य रस्त्यावरील सुर्दी फाटा येथे असलेल्या जनविकास सामाजिक संस्थेने या विहार, झारखंड,

छत्तीसगढ, मध्यप्रदेश, उत्तरप्रदेश राज्याकडे निघालेल्या मजुरांच्या अन्न - पाणी, चहा व नाशत्याची सोय करून भूक भागविली. लॉकडाऊनच्या काळात ऊसतोड मजूर हे गावी परतले. त्यांच्या हाताला कामधंदा नसल्यामुळे त्यांच्या कुटुंबांना अडचणींना तोंड द्यावे लागत आहे. त्यांच्या घरात चूल पेटली पाहिजे

म्हणून जनविकास सामाजिक संस्थेने गहू, तांदूळ, गोडेतेल, साखर, चहापत्ती, साबण, खोबरे तेल, बिस्किट या जीवनावश्यक वस्तूंच्या किट तयार करून दोन हजार सातशे ऊसतोड मजुरांना त्यांच्या गावात सामाजिक अंतर ठेवून या किटचे वाटप केले. ही मदत मजुरांपर्यंत पोहच करण्यासाठी संस्थेचे सचिव रमेश

शेतातील ५५ विवटल गहू, हरभरा वाटप केला

रमेश यांनी स्वतःच्या शेतात पिकवलेला २५ विवटल गहू व ३० विवटल हरभरा विषयीसाठी बाजारात नेला होता. मात्र कोरोनामुळे लॉकडाऊन लागू झाल्याने या परिस्थितीचा विचार करून त्यांनी तो माल परत आणून गोरगरीब आणि गरजू लोकांना वाटून टाकला.

भिसे, मंगल भिसे, अजय भिसे, विजय भिसे, कोमल भिसे, सविता चालक, आशा कापसे, अंजना मस्के, ज्योती लोकरे, शरद पवार, अशोक विष्कड, मच्छिंद्र लांडगे, बाबा पोटभरे यांनी परिश्रम घेतले. दरम्यान, संस्थेच्या या कार्यात अनेक दानशूर लोकांचा वाटा आहे. संस्थेने ही किट मजुरांपर्यंत पोहचवण्याचे काम केले आहे.

बीड जिल्हा 10-05-2021

दिव्य मराठी विशेष • केज परिसरात पालावर वास्तव्य करणाऱ्या गरजूंच्या मदतीसाठी संस्थेने घेतली धाव जनविकासकडून भटक्या पालातील गरजूंना किराणा

प्रतिनिधी | केज

कोरोनाच्या वाढत्या प्रादुर्भावामुळे लोकडाऊन करण्यात आल्याने भटक्या आणि फाल ठोकून वास्तव्यास असलेल्या गोरगरीब गरजूंना किराणा, जीवनावश्यक वस्तूचे केज येथील जनविकास सामाजिक संस्थेच्या वतीने वाटप करण्यात आले. त्यामुळे गरजूंना संकट काळात मोठा दिलासा मिळाला आहे.

कोरोनाच्या उद्रेकामुळे लोकडाऊन असल्याने बीड जिल्ह्यातील भटके, विमुक्त, पारधी, लमाण, बडार, कैकाडी, विसाडी आणि ऊसतोड कामगार या भटकंती करून हातावर पोट असलेल्या कुटुंबांची

याताहत सुरू झाली आहे. उफळत्या जागेवर पाल ठोकून उत्पन्नाचे अगिण जगण्याचे साधन उफळत्या नसल्याने या झोपडीत राहणाऱ्या कुटुंबांकडे खाण्यासाठी काही शिल्लक राहिलेले नाही. बाहेर धी निघता येत नाही. तर भिक ही कोणी देत नाही. अशा परिस्थितीत जगावे की मरावे अशी अवस्था झालीय असा टाहो फोडत आहेत. अशा या गरजू कुटुंबांच्या मदतीला केज येथील जनविकास सामाजिक संस्था धावून आले आहे. संस्थेचे कार्यकारी सचिव रमेश भिसे आणि त्यांच्या सहकाऱ्यांनी पालावर जाऊन अन्नधान्य, किराणा आणि जीवनावश्यक वस्तूचे वाटप करीत संस्थेने सामाजिक बांधिलकी

केज येथील जनविकास सामाजिक संस्थेच्या वतीने पालावर राहणाऱ्या गरजूंना किराणा, जीवनावश्यक वस्तूचे वाटप करण्यात आले.

जपली आहे. संस्थेने तात्पुरता का होईना ही मदत केल्याने या कुटुंबांना जगण्यासाठी मोठा आधार मिळाला आहे. दरम्यान, याप्रसंगी बोलताना

भिसे यांनी समाजातील दानशूरांनी या संकटकाळात गरजूंच्या मदतीला धावले पाहिजे, हीच खरी मदतीची वेळ आहे, असे सांगितले.

हातावर पोट असणाऱ्या घटकांची मदत गरजेची

लोकडाऊनमुळे हातावर पोट असणाऱ्या लोकांचा जगण्याचा प्रश्न निर्माण झाला आहे. शासन म्हणून यंत्रणेने या घटकांचा विचार केला पाहिजेच. परंतु, सामाजिक जाणीव म्हणून आम्ही आमच्या संस्थेच्या वतीने छोटीसी मदत केली. यापुढेही समाजातील इतर दानशू घटकांनी पुढे येत विविधनेत दिवस काढणाऱ्या आपल्या बांधवांसोबत पुढे यावे. एकत्र येऊन आपण सारे या संकटाचा सामना चांगल्या पध्दतीने करू.

- रमेश भिसे, जनविकास संस्था.

बीड जिल्हा 09-07-2021

दायित्व • रिलायन्स फाउंडेशनसह केजच्या जनविकास सामाजिक संस्थेचा संयुक्त उपक्रम केज येथे 9200 गरजू कुटुंबांना धान्य, किराणा किट देत जपली बांधिलकी

प्रतिनिधी | केज

कोरोना महामारीच्या संकट काळात हाताला रोजगार नसल्याने डबघाईला आलेल्या गोरगरीब, निराधार कुटुंबांना मदतीसाठी रिलायन्स फाउंडेशन व जनविकास सामाजिक संस्थेने पुढे येत १२०० गरजू कुटुंबांना अन्नधान्य व किराणा मालाचे मोफत वाटप केले. या मदतीमुळे गरजू कुटुंबांना मोठा आधार मिळाला आहे.

मागील दोड वर्षापासून कोरोना महामारीच्या संकटामुळे सतत लागू करण्यात येत असलेल्या लोकडाऊनचा परिणाम छोटावामोठ्या उद्योग, भंडावर झाला आहे. अनेक उद्योग धंदे बंद पडल्याने अनेकांच्या हातातून रोजगार गेला असून हाताला काम नसल्याने अनेक गोरगरीब, मजूर कुटुंबे डबघाईला आली आहेत. अशा कुटुंबांना अनेक संकटांना तोंड देत जीवन जगावे लागत असून उपासमारीचा सामना करावा लागत आहे. त्यामुळे अशा कुटुंबांना मदतीची गरज आहे. हे ओळखून रिलायन्स फाउंडेशन आणि जनविकास

केज येथे रिलायन्स फाउंडेशन व जनविकास संस्थेच्या वतीने १२०० कुटुंबांना किराणा किटचे वाटप करण्यात आले.

सामाजिक संस्था यांनी पत्र कुटुंबांची निवड करून त्यांना ज्वारी, गव्हाचे पीठ, दळ, साखर, तेल या अन्नधान्य, किराणा मालासह जीवनावश्यक वस्तूच्या स्वरूपात मदत करण्यासाठी पुढाकार घेतला. बीड जिल्ह्यातील १२०० गरजू कुटुंबांना उपविभागीय अधिकारी शरद झाडके, तहसीलदार दुलाजी नेंडके, युसुफबडगाव टाण्याचे सहाय्यक पोलीस निरीक्षक

विजय आटोळे, हॅबीटाईटचे मेल्विन, जनविकास सामाजिक संस्थेचे सचिव रमेश भिसे यांच्या प्रमुख उपस्थितीत अन्नधान्य व किराणा मालाचे वाटप करण्यात आले. तहसीलदार दुलाजी नेंडके यांनी सामाजिक कामांसाठी प्रत्येक घटकाने आज पुढे येण्याची गरज असल्याचे सांगितले. गरजू कुटुंबांना ही मदत देत रिलायन्स फाउंडेशन व जनविकास सामाजिक

संकटकाळात समाजाच्या मदतीसाठी येणे महत्त्वाचे

मागील २० वर्षांपासून जनविकास सामाजिक संस्था ही गोरगरीब कुटुंबांच्या प्रगतीसाठी काम करीत आहेत. आता कोरोनाच्या काळातही गरजू कुटुंबांना अन्नधान्य, जीवनावश्यक वस्तूच्या स्वरूपात मदत करून आधार देण्याचे काम करीत आहे. म्हणून संस्थेचे हे कार्य कौतुकस्पद आहे. संकटकाळात गरजूंच्या मदतीसाठी प्रत्येकाने पुढे आलेच पाहिजे.

- शरद झाडके, उपविभागीय अधिकारी, अहमदनगर.

संस्थेने सामाजिक बांधिलकी जपली असून या मदतीमुळे या कुटुंबांना मोठा आधार मिळाला असल्याचेही ते म्हणाले. कार्यक्रमाचे सूत्रसंचालन शरद पवार यांनी केले तर आभार सविता चाळक यांनी मानले. हा कार्यक्रम यशस्वी करण्यासाठी मिच्छेंद्र लांडगे, उत्तम गायकवाड, वीरभद्र पोटभरे, अशाशा कापसे, जयश्री सोनवणे, अशाश क्षीरसागर आदींनी परिश्रम घेतले.

हॅबीटाट व जनविकास संस्थेचा स्तुत्य उपक्रम चिंचोली माळी प्राथमिक आरोग्य केंद्रातील वैद्यकीय साहित्य वाटप

केज, (प्रतिनिधी):- केज तालुक्यातील चिंचोली माळी येथील प्राथमिक आरोग्य केंद्रात सामाजिक ज्ञानीगेनून हॅबीटाट ह्यूमिनिटी फॉर इंडिया व जनविकास सेवाभावी संस्थेच्या वतीने आज सकाळी १० : ०० वाजता वैद्यकीय साहित्याचे वाटप करण्यात आले.

याविषयी सविस्तर वृत्त असे की सद्य परिस्थितीत कोरोना आजाराचे धैमान घातल्याने व तिसऱ्या लाटेच्या पारवभूमीवर आरोग्य केंद्रात कर्मचाऱ्यांना लागणारे वैद्यकीय साहित्याची कमतरता भासू नये या उद्देशाने जनविकास संस्थेचे संस्थापक अध्यक्ष मा. रमेश भिसे साहेब यांच्या वतीने पि.पी.ई

फिट, सॅनिटाइझर, हॅंडवॉश, मास्क इत्यादी साहित्याचे वाटप करण्यात आले. यापूर्वीही चिंचोली माळी मधील तीन आत्महत्या प्रसन्न कुटुंबातील निरापारांना संस्थेच्या माध्यमातून घरकुले देण्यात आलेली आहेत, तसेच गावात

कोरोना विषाणूने धैमान घातल्याने मृत्युंच्या संख्येत वाढ होत आहे ही बाब लक्षात घेताच संस्थेचे अध्यक्ष मा. रमेश भिसे साहेबांनी मृत्यू पावलेल्यांच्या कुटुंबांना किराणा फिट व मोठ्या प्रमाणात आर्थिक

सहकार्य केलेले आहे. म्हणूनच कोरोना काळातील माणुसकीच्या मंदिरातील देव माणूस म्हणून मा. रमेश भिसे साहेबांकडे बघण्याची लोकांची भावना झालेली आहे. आपल्या अनोख्या सामाजिक कार्याने नावलीकिक मिळवलेल्या जनविकास सेवाभावी संस्थेचे चिंचोली माळी गावाकऱ्यांनी मनःपूर्वक आभार मानले आहेत. यावेळी जनविकासचे विजय भिसे, लांडगे, सरपंच सुनील बापू देशमुख, अनिल गलांडे, वैद्यकीय अधिकारी डॉ. महादेव सांगळे, नितीन गलांडे, भासत सत्वपर, ससाने मॅडम यांच्यासह आरोग्य कर्मचारी व नागरिक उपस्थित होते.

बीड जिल्हा 04-10-2021

दिव्य मराठी विशेष • आणेगाव, इस्थळ येथे गरजूंच्या मदतीसाठी रमेश भिसे व सहकाऱ्यांनी घेतला पुढाकार पूरग्रस्त भागात जनविकास संस्थेकडून कम्युनिटी किचन

प्रतिनिधी | केज
माघील १५ दिवसांपासून सुरू असलेल्या पावसाने जनजीवन विस्कळीत झाले असून पुरात फिकांसह जमिनी, गुरे वाहून गेली आहेत. अनेक घरांची पडझड झाली असून अन्नधान्य भिजल्याने नासडी झाली आहे. त्यामुळे पूरग्रस्त भागात गोरगरीबांच्या खाण्यापिण्याचा प्रश्न ऐरणीवर आल्याने जनविकास सामाजिक संस्थेने कम्युनिटी किचन सुरू केले आहेत.
केज तालुक्यात अतिवृष्टी आणि सततच्या पावसाने नद्यांना आलेल्या पुरामुळे शेतकऱ्यांची खरिपाची फिके हातातून गेली असून उत्पन्न पध्दत पडले नाही. त्यामुळे शेतकरी

आर्थिक अडचणीत सापडले आहेत. पुरात गुरे ही वाहून गेल्याने दुहेरी संकट कोसळले आहे. तर घरात पाणीच पाणी झाल्याने गोरगरीबांची दुग्ढामातीची घरे जमीनदोस्त झाली आहेत. घरातील खाण्यापिण्याचे अन्नधान्य वाहून व भिजून गेले आहे. रात्रीच्या अंधारात रस्ते व गावाला जोडणारे पुल वाहून गेल्याने जीव मुठीत धरून आपल्या मूलबाळांना सुरक्षित जागा शोधत होते. अशा परिस्थितीत महसूल, पोलिस, सामाजिक कार्यकर्ते, तरुणांनी मदत केल्याने जिवितहानी झाली नाही. आता पूरग्रस्त भागातील गोरगरीब जनतेची घरे पडल्याने व घरात खाण्यापिण्यासाठी काही शिल्लक राहिले नसल्याने

उपासमार सुरू झाली होती. त्यामुळे सामाजिक चांगिलकीतून जनविकास सामाजिक संस्थेच्या माध्यमातून आणेगाव, इस्थळ या गावासह पूरग्रस्त गावात किराणा साहित्य पुरवठा करून कम्युनिटी

किचन सुरू केले असून पूरग्रस्तांच्या जेवणाची व्यवस्था केली आहे. तर युवक हे स्वयंछक बनवण्याचे व लोकाना जेवू घालण्याचे कार्य करत आहेत. त्यामुळे पूरग्रस्तांना काहीसा दिलासा मिळतोय.

आपतीकाळात प्रत्येक घटकाने मदतीचा हात द्यावा
■ पाऊस, अतिवृष्टी झाल्यानंतर तालुक्यात मोठ्या प्रमाणात नुकसान झालेले आहे. लोकप्रतिनिधी शिवाय फेऱ्या काढून नुसतीं आश्वासने देऊन गेली. मात्र जीवनवश्यक गरजा भागविण्यासाठी कोणीही अशाच पुढाकार घेतलेला नाही. त्यामुळे पूरग्रस्त भागातील नागरिकांना चादरी व इतर साहित्य पुरवठा करणे आहे. अशा संकट काळात जमेल तसे सहकार्य देत. आपतीकाळात मदतीचा हात द्यावा - **रमेश भिसे**, संचय, जनविकास सामाजिक संस्था, केज.
